Subject: The Gotaway

Hi (b)(6);(b)(7)(C)

As you likely know, El Centro Sector produced a video called “The Gotaway” which is now posted officially by CBP on Instagram, Twitter and Youtube. The video is a short reenactment of a vehicle pursuit followed by one UDA escaping who ultimately makes his way to an alley where he encounters a man, asks him for money, and ultimately stabs him leaving him bleeding on the ground which then fades-away into the USBP seal. It’s a very professionally produced video.

The video has already garnered significant media attention and will likely generate official complaints and inquiries in the coming days. The concerns highlighted in some of the media reports are worth noting:

1. The original Instagram post added a large number of #hashtags and tags including: #Americafirst, @dailycaller, @thedailysignal, @epochtimes, @wearebreitbart, @theblazetv.

A quick review of the content found at the #Americafirst hashtag on Instagram reveals it has a partisan political bent supporting a specific candidate.

The five media outlets tagged all have a strong political bent to their reporting. I didn’t see any similar tags during my quick review of other recent posts from El Centro Sector.
